

Mohammad Zaher Abualrub

Junior Full Stack Developer

About Me

I am a 20-year-old fresh graduate from Applied Science Private University. I'm a very social and active person involved in various university activities. I've competed in international and national programming competitions, and I'm currently working on mastering Full Stack Development specially Backend Development.

Education

Applied Science Private University

Bachelor of Computer Science
Sep 2021 - sep2023

Projects

Github: <https://github.com/abualrub03>

I've done several small-scale clean code projects, most of which have been uploaded to GitHub. I developed it using several technologies, most notably .NET MVC, and using relational databases like MSSQL and adding a few features to these projects like authentications and authorizations using JWT and Claims.

Knowledge

- html ,css and Js
- Ajax
- jQuery
- .NET Core MVC
- C++
- OOP
- Bootstrap
- project management skills
- SQL
- Java
- Linux
- Git
- Python
- C#
- REST APIs
- Web Design

EXPERIENCE

Software engineering & DevOps (Internship) - Atypon May 2023 - July 2023 / 3 mos

During my second year at university, I had a very special opportunity at Atypon to be intern in the field of software engineering using Spring Boot technology using Java and DevOps principles.

Full Stack .NET Development (Internship) - Kayan HR August 2023 - Jan 2024 / 6 mos

I got the opportunity to gain practical experience in Full Stack web development and complete many projects, which provided me with huge experience in html, css, javascript, C# , .Net Core, Model-View-Controller (MVC) Design Pattern, jQuery, ASP.NET AJAX, Rest Api, SQL Server, Bootstrap (Framework) and more.

Estarta Incubator Program (Internship) - Estarta Mar 2024 - Present

For the third time, I received a more distinguished opportunity to be an intern at Estarta, as this internship includes covering all the basic principles in the world of networking, specifically the topics that branch out from the cisco certified network associate certificate (CCNA), and gaining practical experience in covering these topics.

Oracle Integration Cloud Development (Internship) - Software Consultancy July 2024 - Present

.Net Full Stack Developer - OH Tech Solutions Limited Contract July 2024 - September 2024

ACCOMPLISHMENTS

Google Developer Student Club

Achieving the first position in the Google Programming competition (Hour of Code) at the university level, based on excellence in problem-solving.
